Seven Reasons Why Parents *Choose OurFamilyWizard*

Conflict will start to fade.

Clearly documented, tamper-proof communication means there's less to argue about. Specialized features mean fewer open-ended conversations. ToneMeter AI helps you write calmly, instead of provoking more conflict. And a more positive co-parenting dynamic means fewer legal battles.

You can protect your kids.

Conflict might not end, but any arguments will be contained within the co-parenting app. Then the kids won't hear you fight. That's one way to minimize divorce-related childhood trauma. Better yet, when you're both more organized and less combative, you can focus on the kids' best interests.

You can keep all your co-parenting tasks & messages in one place.

The app has a parenting time calendar, messaging, calling, expense tracking, and more. No more hunting for info between emails, texts, and other apps. OurFamilyWizard is a secure, centralized hub—a single source of truth.

Your professionals can access your documentation directly.

Everything is centrally documented, and it's easy to compile evidence quickly. No more endless screen-shotting! Instead, just download a comprehensive or filtered PDF. You don't even have to do it yourself. Your legal or mental health professional can go into the app and get what they need.

You can spend less money on legal bills.

Saving just one hour of your lawyer's fee could cover the cost of the app (and more). Because it's so easy for attorneys to get the documentation they need, OurFamilyWizard saves co-parents an average of 38% on legal fees.

You can prevent conflict.

OurFamilyWizard isn't just for high-conflict co-parents. Even if you're amicable, the app can support your co-parenting. All your tasks, conversations, and decisions are in one place, so it's easy to stay on the same page—and stay amicable.

You can free up time, emotional energy, & mental space.

Co-parenting is stressful. But by using tools specific to co-parenting, in one compartmentalized place, you can reduce your emotional costs, limit the boundaries of the conflict, and reclaim some brain space.

Why People Choose *OurFamilyWizard*

"My ex would email my attorney nonstop over small things, and my attorney would charge me \$100 for each email she received. That made the \$100 subscription well worth it. It was nice that it was monitored, so what I said was safe from being misused, and I felt my ex was watching what she said as it was admissible in court in our state. **I recommend the app 1000 times over**".

Parent Testimonial

"**OurFamilyWizard has changed my life for the better since my divorce.** Having this tool where everything is recorded in one place and being able to confirm the emails are read or not is a huge win for co-parenting with a narcissist. Every divorced parent should use this so they have recorded proof".

Parent Testimonial

"**This app massively unburdens parents from stressful co-parenting situations.** Everything is logged, clearly organized, viewable by a judge, a great way to distance yourself from a toxic co-parent and keep things simple and streamlined for the benefit of the child".

Attorney Testimonial

So many of the disputes that bring families back to court time and time again involve communication breakdowns. OurFamilyWizard provides families with an excellent communication vehicle that when used regularly, should substantially reduce the need to come back to court.

More important, regular use should help reduce the level of animosity between parents that can be so harmful to children. **Even families not involved in court proceedings should benefit from OurFamilyWizard.com.** It is an effective tool that allows parents to plan and implement..."
